

AspenTech Wins Chemical Processing Magazine 2011 Readers' Choice Awards for Eighth Consecutive Year

September 19, 2011

Process Industry Again Recognizes aspenONE Leadership in Plant Design Software and Process Simulation Software Categories

BURLINGTON, Mass., Sep 19, 2011 (BUSINESS WIRE) -- [Aspen Technology, Inc.](#) (NASDAQ: AZPN), a leading provider of software and services to the process industries, today announced it has won *Chemical Processing Magazine's* 2011 Readers' Choice Awards for the eighth consecutive year. AspenTech surpassed Autodesk, Chemstations, Emerson Process Management, Honeywell, and Intergraph to win the Plant Design and Process Simulation categories.

- In the Process Simulation Software category, AspenTech won for the eighth consecutive year.
- In the Plant Design Software category, AspenTech won for the seventh time.
- The [aspenONE](#) process optimization software suite is used by the world's leading process industry companies to implement best practices across engineering, manufacturing, and supply chain operations, making it easier to achieve their operational excellence goals.

About AspenTech

AspenTech is a leading supplier of software that optimizes process manufacturing - for energy, chemicals, pharmaceuticals, engineering and construction, and other industries that manufacture and produce products from a chemical process. With integrated aspenONE solutions, process manufacturers can implement best practices for optimizing their engineering, manufacturing and supply chain operations. As a result, AspenTech customers are better able to increase capacity, improve margins, reduce costs and become more energy efficient. To see how the world's leading process manufacturers rely on AspenTech to achieve their operational excellence goals, visit <http://www.aspentech.com>
