CURRENT REPORT

Pursuant to Section 13 OR 15(d) of The Securities Exchange Act of 1934

Date of Report (Date of earliest event reported): **July 12, 2019**

ASPEN TECHNOLOGY, INC.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction
of incorporation)

001-34630
(Commission
File Number)

04-2739697
(IRS Employer
Identification No.)

20 Crosby Drive, Bedford, MA
(Address of principal executive offices)

01730
(Zip Code)

Registrant's telephone number, including area code: **(781) 221-6400**

(Former name or former address, if changed since last report.)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions (see General Instruction A.2. below):

- Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 or Rule 12b-2 of the Securities Exchange Act of 1934.

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 8.01. Other Events.

On July 12, 2019, we issued a press release announcing the agreement to acquire Mnuvo, Inc., a Montreal-based provider of purpose-built artificial intelligence and analytics infrastructure for the Internet of Things, and our prior acquisition of Sabisu Ltd., a UK-based company that provides a flexible enterprise visualization and workflow solution to address the particular needs of a business and deliver real-time decision support. The full text of the press release is attached as Exhibit 99.1 to this Current Report on Form 8-K. Neither Exhibit 99.1 nor any information contained therein shall be deemed "filed" for the purposes of Section 18 of the Securities Exchange Act of 1934 or otherwise subject to the liabilities of that section, nor shall either Exhibit 99.1 or any information therein be deemed incorporated by reference in any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934 except as expressly set forth by specific reference in such a filing. We completed the acquisition of Mnuvo effective as of July 12, 2019.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits.

The following exhibit relating to Item 8.01 shall be deemed to be furnished, and not filed as part of this Current Report on Form 8-K.

Exhibit No.	Description
99.1	Press release issued by Aspen Technology, Inc. on July 12, 2019

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Aspen Technology Acquires Mnuvo and Sabisu to Deliver Scalable AI-Driven Solutions for the Smart Enterprise

July 12, 2019

Aspen Technology, Inc. (NASDAQ: AZPN), a global leader in asset optimization software, has signed an agreement to acquire Mnuvo Inc., a Montreal-based provider of purpose-built artificial intelligence (AI) and analytics infrastructure for the Internet of Things (IoT). Mnuvo enables industrial companies to assemble and deploy AI-driven IoT applications quickly, at enterprise scale. The Mnuvo technology will accelerate the realization of AspenTech's vision for the next generation of asset optimization solutions that combine deep process expertise with AI and machine learning. The acquisition is expected to close within the next five business days.

In addition to deploying AI-powered applications, the ability to visualize vast quantities of information and analyzed data is critical to the evolution of the smart enterprise. To further enhance these capabilities AspenTech has acquired Sabisu Ltd., a UK-based company that provides a flexible enterprise visualization and workflow solution to deliver real-time decision support. AspenTech acquired Sabisu in June 2019.

These acquisitions will enable AspenTech to accelerate the distribution of embedded AI in both its existing and future solutions. By combining first principle engineering models and deep process expertise with AI capabilities, these solutions will enable the automation of knowledge and data-driven decision-making for continuous improvement across the design, operation and maintenance lifecycle of industrial assets.

"With the current pressures on margins, our customers need to yield higher outputs and drive higher efficiencies with existing assets. When expertly applied, AI offers a significant competitive advantage in managing operations to the limits of performance without compromising safety. By bringing the deep domain expertise of AspenTech together with Mnuvo AI-driven IoT expertise and Sabisu visualization, we can deliver innovation that helps our customers drive greater value from their existing data at scale. The actionable insights from AI-powered applications will help AspenTech customers to achieve a truly smart enterprise. I am delighted to welcome the highly talented teams from both Mnuvo and Sabisu to AspenTech," commented Antonio Pietri, president and CEO of Aspen Technology.

"The global adoption of AI and IoT technologies is powering the next wave of industrial-digital enterprises. The Mnuvo AI and analytics infrastructure was purpose-built to accelerate the digital transformation of traditional industries by democratizing the power of artificial intelligence and machine learning. Our location in Montreal's world-class AI ecosystem enables AspenTech to establish a Centre of Excellence for these cutting-edge technologies, and to attract some of the best talent in this space. We are very excited to continue to develop innovative AI solutions that target IIoT at enterprise scale, under the AspenTech umbrella," said Frédéric Bastien, co-founder and CEO of Mnuvo.

"Sabisu can aggregate performance data from multiple sources, from historians to spreadsheets, from across the plant, country or world. When made available to engineering, operations, planning and maintenance teams, the comprehensive analysis can be used to significantly enhance uptime and efficiency. We are excited to join AspenTech and develop our technology to achieve actionable data insights that have been previously unobtainable," said Tim Sharpe, co-founder and managing director of Sabisu.

The purchase price of the Mnuvo transaction is agreed at CAD102 million. Financial details for the Sabisu acquisition, which includes Argent & Waugh Ltd., are not disclosed.

About Aspen Technology

Aspen Technology (AspenTech) is a leading software supplier for optimizing asset performance. Its products thrive in complex, industrial environments where it is critical to optimize the asset design, operation and maintenance lifecycle. AspenTech uniquely combines decades of process modeling expertise with machine learning. The company's purpose-built software platform automates knowledge work and builds sustainable competitive advantage by delivering high returns over the entire asset lifecycle. As a result, companies in capital-intensive industries can maximize uptime and push the limits of performance, running their assets safer, greener, longer, faster.
