-----  
PROXY STATEMENT  
-----

I. GENERAL INFORMATION

PROXY SOLICITATION

The enclosed proxy is solicited by the Board of Directors of Aspen Technology, Inc. (the "Corporation") for use at the 1996 Annual Meeting of Stockholders and at any adjournments or postponements thereof (the "Meeting"). The Meeting will be held at 3:00 p.m. on December 16, 1996, at the Royal Sonesta Hotel, Riverfront Room, East Tower, 2nd Floor, Cambridge, Massachusetts, 02142.

The cost of soliciting proxies by mail, telephone, telegraph or in person will be borne by the Corporation. The Corporation has retained the services of Morrow & Co., Inc., a proxy solicitation firm based in New York City, to which the Corporation will pay a fee of \$3,000 plus reimbursement for mailing and out-of-pocket expenses. In addition to the cost of soliciting proxies by mail, the Corporation will reimburse brokerage houses and other nominees for their expenses incurred in sending proxies and proxy material to the beneficial owners of shares held by them. This proxy statement and the enclosed proxy are first being mailed or given to stockholders on or about November 22, 1996.

#### REVOCABILITY AND VOTING OF PROXY

A form of proxy and a return envelope for the proxy are enclosed. A proxy, if completed and returned, may be revoked at any time prior to its use at the Meeting by giving written notice to the Clerk of the Corporation, by executing a revised proxy at a later date or by attending the Meeting and voting in person. Proxies in the form enclosed, unless previously revoked, will be voted at the Meeting as specified in the proxies or, in the absence of specification, in favor of the matters listed thereon and, with respect to any other business which may properly come before the Meeting, in the discretion of the named proxies. Votes withheld from any nominee, abstentions and broker "non-votes" are counted as present or represented for purposes of determining the presence or absence of a quorum for the Meeting. A "non-vote" occurs when a nominee holding shares for a beneficial owner votes on one proposal, but does not vote on another proposal because the nominee does not have discretionary voting power and has not received instructions from the beneficial owner. Abstentions are included in the number of shares present or represented and voting on each matter. Broker "non-votes" are not so included.

#### VOTING SECURITIES AND VOTING RIGHTS

The Corporation's Common Stock, par value \$0.10 per share ("Common Stock"), is the only class of voting securities outstanding and entitled to vote at the Meeting. Each stockholder of record on November 8, 1996, is entitled to one vote for each share

4

### III. ELECTION OF DIRECTORS

The Board of Directors currently consists of seven members, divided into three classes. Each class of directors serves a three year term, the terms of which are staggered so that the term of only one class expires each year.

The Board of Directors has nominated Mr. Brown and Ms. Ross for election as Class III directors, to serve for three-year terms, until the 1999 Annual Meeting or until their respective successors are elected and qualified. Mr. Rousseau, whose term as a director expires on the date of the Meeting, has elected not to stand for reelection as a director. The Board of Directors has resolved to set the number of directors at six following the retirement of Mr. Rousseau. In light of Mr. Rousseau's retirement from the Board of Directors, the Board has nominated Ms. Ross who was previously elected in February 1996 with a term expiring at the next Meeting of Stockholders, for election this year as a Class III director in order to cause each class of directors to consist of two directors. If for any reason either Mr. Brown or Ms. Ross should become unavailable for election, the persons named in the proxy may vote the proxy for the election of a substitute. However, each nominee has consented to serve as a director if elected, and the Board of Directors has no reason to believe that either of the nominees will become unavailable for election.

President, Chief Executive Officer and Director of Advent International Corporation, a venture capital investment firm, since January 1996. Mr. Brown was previously Chief Investment Officer of Advent International Corporation from 1994 to December 1995 and Senior Vice President and Managing Director - Europe of Advent International Corporation from 1990 to 1994. Mr. Brown holds a B.S. in Chemical Engineering from the Massachusetts Institute of Technology ("M.I.T.") and an M.B.A. from the Harvard Graduate School of Business Administration. Mr. Brown has also served as a director of Ionics, Incorporated since May 1996.

Alison Ross, age 36 has served as a director of the Corporation since February 1996 and is a member of the Audit Committee. Ms. Ross is the President of Smart Finance & Co., an investment banking consulting firm she founded in January 1995. Smart Finance & Co. provides advisory services to the Company from time to time. See "Certain Transactions" below. From September 1992 to January 1995, Ms. Ross was a Principal of Montgomery Securities. From September 1991 through August 1992, Ms. Ross served as Special Assistant to the secretary of the Cabinet in the Executive Office of the President of the United States, as part of a one-year appointment as a White House Fellow. Ms Ross holds an S.B. in Economics and an S.M. in Management from M.I.T.

The affirmative vote of the holders of a majority of votes cast at the Meeting is required for the election of directors. The Board recommends a vote in favor of each of the nominees, but proxies will be voted as indicated thereon. In the absence of direction, unless authority is withheld, it is the intention of the persons voting under the enclosed proxy to vote such proxy in favor of the election of Mr. Brown and Ms. Ross as Class III directors.

The following table sets forth certain information about these Class I and Class II directors whose terms do not expire this year.

Additionally, the Corporation's 1995 Directors Stock Option Plan provides that each non-employee director be granted an option to purchase 12,000 shares of Common Stock at fair market value upon his or her initial election as a director (or December 18, 1995, for previously elected directors) and an option to purchase 4,000 shares of Common Stock at fair market value following any annual meeting if such director continues as a non-employee director.

#### REPORT OF THE COMPENSATION COMMITTEE

The following is the Report of the Compensation Committee of the Board of Directors (the "Committee"), describing the compensation policies and rationale applicable to the Corporation's executive officers with respect to the compensation paid to such executive officers for the year ended June 30, 1996.

#### Purpose of the Committee

The Committee is responsible for determining compensation levels for the executive officers for each fiscal year based upon a consistent set of policies and procedures.

#### Elements of the Compensation Program

Each executive officer's compensation package is comprised of three elements: base compensation, which reflects individual performance and is designed primarily to be competitive with salary levels in a comparative group; bonus compensation, payable in cash and based on achievement of financial performance goals established by the Committee; and stock options, designed to assure long-term alignment with the interests of stockholders. Both the base compensation and the bonus compensation were established after review of a report from Towers, Perrin, Forster & Crosby, Inc. ("TPF&C"), consultants in management compensation. TPF&C analyzed the base compensation and bonus compensation of executive officers of the Corporation against similar amounts paid by comparable corporations. TPF&C noted that the base compensation and bonus compensation of the executive officers of the Corporation are generally below the averages for executives of the comparable group of corporations. In assessing the information contained in the report, the Committee considered the nature of the business, the size and the profitability of comparable companies. Stock options were granted in amounts deemed by the Committee to be appropriate to assure alignment with stockholder interests and to serve as a means to retain the services of the executive officers.

#### Section 162(m) Limitations

The cash compensation to be paid to the Corporation's executive officers for the fiscal year ending June 30, 1997 is not expected to exceed the \$1 million limit per officer imposed on the tax deductibility of such compensation by Section 162(m) of the Internal Revenue Code. Because the Corporation's 1995 Stock Option Plan limits the maximum number of shares of Common Stock for which any one participant may be granted stock options, has been approved by the stockholders, and is administered by the Committee, any compensation deemed paid to an executive officer when he or she exercises an outstanding option under that Plan will qualify as performance-based compensation and will not count toward (or beyond) the \$1 million limitation.

The Board of Directors, on November 11, 1996, voted to submit to the stockholders at the Meeting a proposal to amend Articles 3 and 4 of the Corporation's Articles of Organization increasing the authorized number of shares of Common Stock from 15,000,000 to 40,000,000.

Holder of Common Stock are entitled to one vote per share on all matters submitted to a vote of stockholders of the Corporation and to receive ratably dividends, if any, as may be declared from time to time by the Board of Directors from funds legally available therefor, subject to the payment of any outstanding preferential dividends declared with respect to any Preferred Stock that from time to time may be outstanding. Upon liquidation, dissolution or winding up of the Corporation, holders of Common Stock are entitled to share

ratably in any assets available for distribution to stockholders after payment of all obligations of the Corporation, subject to the rights to receive preferential distributions of the holders of any Preferred Stock then outstanding.

If the proposed amendment is approved, all or any part of the authorized but unissued shares of Common Stock may thereafter be issued without further approval from the

15

14

stockholders, except as may be required by law or the policies of any stock exchange or stock market on which the shares of stock of the Corporation may be listed or quoted, for such purposes and on such terms as the Board of Directors may determine. Holders of the capital stock of the Corporation do not have any preemptive rights to subscribe for the purchase of any shares of Common Stock, which means that current stockholders do not have a prior right to purchase any new issue of Common Stock in order to maintain their proportionate ownership.

The proposed amendment will not affect the rights of existing holders of Common Stock except to the extent that future issuances of Common Stock will reduce each existing stockholder's proportionate ownership.

If the proposed amendment is adopted, Articles 3 and 4 of the Articles of Organization would be amended to read as follows:

3: The total number of shares and the par value, if any, of each class of capital stock which the corporation shall have authority to issue is as follows:

Class of Stock -----	Without Par Value Number of Shares -----	With Par Value -----	
		Number of Shares -----	Par Value -----
Preferred		10,000,000	\$0.10
Common		40,000,000	\$0.10

4: If more than one class is authorized, a description of each of the different classes of stock, with, if any, the preferences, voting powers, qualifications, special or relative rights or privileges as to each class thereof and any series now established:

The Corporation shall have authority to issue 50,000,000 shares of capital stock of which 40,000,000 shares shall be Common Stock in the amount as set forth below and 10,000,000 shares shall be preferred stock in the amount set forth below:

Classification -----	No. of Shares -----	Par Value -----
Common Stock	40,000,000	\$0.10
Preferred Stock	10,000,000	\$0.10

The shares of Preferred Stock may be issued from time to time in one or more classes or series. The Board of Directors is hereby authorized to establish and designate the different class or series, and to fix and determine preferences, voting powers, qualifications, and special or relative rights or privileges thereof and such designations as shall be stated in a vote or votes providing for the issue of such class or series adopted by the Board of Directors, which preferences, voting powers, qualifications, and special or relative rights or privileges need not be uniform among class or series. Any of the preferences, voting powers, qualifications, and special or relative rights or privileges of any such class or series of stock may be made dependent upon facts ascertainable outside the vote or votes providing for the issue of such stock adopted by the Board of Directors, provided that the manner in which such facts shall operate upon the preferences, voting powers, qualifications, and special or relative rights or privileges of such class or series of stock is clearly and expressly set forth in the vote or votes providing for the issue of such class or series adopted by the Board of Directors. Prior to the issuance of any shares of the class or series having terms so determined by the

16

15

Board of Directors other than a reissue of shares as shares of the same class and series, the Corporation shall submit to the Secretary of State a certificate signed by the President or a Vice President and by the Clerk or an Assistant Clerk setting forth the text of the vote or votes of the Board of Directors determining the terms of the class or series or the number of votes and a certificate that such vote or votes were duly adopted by the Board of Directors.

The proposed amendment to Articles 3 and 4 will not change any other aspect of such Articles.

The Board of Directors has determined that it would be appropriate for the Corporation to increase the number of its authorized shares of Common Stock in order to have additional shares available for possible future acquisition or financing transactions and other issuances, or to satisfy requirements for additional reservations of shares by reason of future transactions which might require increased reservations. The Board of Directors believes that the complexity of customary financing, employment and acquisition transactions requires that the Directors be able to respond promptly and effectively to opportunities that involve the issuance of shares of Common Stock. For example, if the proposal is approved, the Corporation will have the flexibility to authorize stock splits and stock dividends and to enter into joint ventures and corporate financings involving the issuance of shares of Common Stock. The issuance of Common Stock, while providing desirable flexibility in connection with possible acquisitions and other corporate purposes, could have the effect of making it more difficult for a third party to acquire, or of discouraging a third party from acquiring, a majority of the outstanding stock of the Company. The Corporation has no present plans, agreements, understandings or arrangements regarding transactions expected to require issuance of the additional shares of Common Stock that would be authorized by the proposed amendment.

## VI. 1996 SPECIAL STOCK OPTION PLAN

### BACKGROUND

The Board of Directors has adopted a 1996 Special Stock Option Plan (the "1996 Special Plan"), subject to approval by the stockholder, which covers 250,000 shares of Common Stock issuable upon exercises of options to be granted solely to employees, consultants and directors of businesses acquired by the Corporation and its subsidiaries after December 16, 1996. The 1996 Special Plan would be in addition to the 1995 Stock Option Plan (the "1995 Plan"), which covers 1,284,685 shares of Common Stock for issuance under options which may be granted to key employees and key advisors of the Corporation and its subsidiaries. The 1995 Plan will automatically increase on July 1, 1997 by 5% of the Common Stock outstanding as of June 30, 1997.

The Board of Directors has determined that it would be in the best interests of the Corporation to establish a separate pool of options which could be granted to employees, consultants and directors of newly acquired businesses. The 1996 Special Plan requires the options to be granted within six months of the relevant acquisition. This option program would allow the Corporation to consider the value and strategic importance of a newly acquired business in the granting of options to employees, consultants, and directors associated with the business, without decreasing the pool of options available to the employees and advisors of the Corporation and its subsidiaries.

### DESCRIPTION OF 1996 SPECIAL STOCK OPTION PLAN

The 1996 Special Plan as adopted by the Board of Directors would cover 250,000 shares of Common Stock of the Corporation. It is intended to advance the interests of the Corporation and its stockholders by improving the Corporation's ability to compensate and provide incentives to employees, consultants and directors of newly acquired businesses who are instrumental in the effective transfer of the acquired business or are in a position to contribute to the management and growth of the Corporation and its subsidiaries. By establishing a separate option pool for employees, consultants and directors of newly acquired businesses, the Corporation also will avoid creating acquisition disincentives for its existing employees and advisors who would otherwise experience a decrease in the pool of options available to them each time options were granted in connection with an acquisition.

The 1996 Special Plan provides that the Corporation may grant options for not more than the stated number of shares of its Common Stock, subject to increase or decrease in the event of subsequent stock splits or other capital changes. In the event that any option expires or terminates for any reason without being exercised in full, the unpurchased shares covered thereby will be available for subsequent grants under the 1996 Special Plan. Options under the

1996 Special Plan may be granted on or after December 16, 1996 but not later than November 30, 2006.

An option under the 1996 Special Plan may be granted only to an employee, consultant or director of an acquired business. Employees of an acquired business may receive either incentive options or nonstatutory options, as decided by the Committee, but non-employee grantees may receive only nonstatutory options. The aggregate fair market value of Common Stock for which

incentive options held by any participant may first become exercisable in any calendar year (determined as of the time the incentive option is granted) shall not exceed \$100,000.

The exercise price under each incentive option granted pursuant to the 1996 Special Plan shall not be less than 100% of the fair market value of the Common Stock on the date of grant. The exercise price of each nonstatutory option is not so limited. An option may be exercised in exchange for cash or shares of Common Stock equal in value to the exercise price. An option may also be exercised through a cashless exercise procedure pursuant to which the optionee provides irrevocable written instructions to a designated brokerage firm to effect the immediate sale of the purchased shares and to remit to the Corporation, out of the sale proceeds, an amount equal to the aggregate option price payable for the purchased shares plus all applicable withholding taxes.

The 1996 Special Plan is administered by the Committee. The Committee has complete authority, subject to the limitations described herein, to determine which eligible employees, consultants and directors will be granted options, the time at which options will be granted, the number of shares covered by each option, the exercise price, the vesting schedule, and the option period.

Each option under the 1996 Special Plan will be evidenced by a written option agreement in such form as may be approved by the Committee. Each option will be exercisable in one or more installments at the time provided in the option agreement, generally one-sixteenth at the end of each calendar quarter, except that no incentive option may be exercised later than 10 years from the date of its grant. Each option will provide that the option will become immediately exercisable in full in the event of a change of control. Options granted under the 1996 Special Plan are not transferable other than by will or the laws of descent and distribution, and may be exercised during the life of an optionee only by the optionee. All rights to purchase shares under the options will cease to accrue upon the death or other termination of employment of an optionee, and any accrued rights not then exercised are exercisable only within a limited period thereafter.

The 1996 Special Plan is intended to qualify as an "incentive stock option plan" within the meaning of Section 422 of the Internal Revenue Code of 1986, but not all options granted under the 1996 Special Plan are required to be incentive options. Under the applicable Code provisions, an employee will recognize no income subject to federal income taxation upon either the grant or exercise of an incentive option under the 1996 Special Plan, and the Corporation will not be entitled to a deduction for federal income tax purposes as a result of the grant or exercise of the incentive option. Generally, if an optionee disposes of the incentive option shares more than two years after the date the option was granted and more than one year after the exercise of the option, the gain or loss on a sale of the incentive option shares, equal to the difference between the sales price and the option exercise price, will be treated as long-term capital gain or loss. In that case, the Corporation will not be entitled to a deduction at the time the optionee sells the option shares. If the optionee sells the incentive option shares within two

years after the date the option is granted or within one year after the date the option is exercised, the optionee will generally be taxed on an ordinary income basis on the sale of the shares on an amount equal to the difference between the fair market value at exercise and the incentive option exercise price. The Corporation will be allowed a deduction at that time in an amount equal to the ordinary income realized by the employee. In addition, some optionees may be subject to a minimum tax on tax preference income. No taxable income will be recognized by an individual upon the grant of a nonstatutory option under the 1996 Special Plan. Upon the exercise of the nonstatutory option however, the amount, if any, by which the fair market value of the shares at exercise exceeds

the option exercise price will be treated as ordinary income to the individual in the year of exercise. In that case, the Corporation will be allowed an income tax deduction in an amount equal to the amount the individual recognizes as ordinary income.

#### RECOMMENDED VOTE

An affirmative vote of a majority of the Common Stock represented in person or by proxy at the Meeting is necessary to approve the 1996 Special Stock Option Plan. The Board of Directors recommends that you vote "FOR" this proposal.
